

Powering the Future of Innovation

Automotive Auxiliary Inverter

- **Wide-Range Input** – Designed to meet automotive's stringent engine cranking profiles to ensure devices always stay connected.
- **Reliable AC Power** – Delivers 400W Continuous AC output power at 120V or 220V rms designed to power countless devices.
- **Vehicle-Ready Controls** – Supports LIN communication, advanced diagnostics, and many new features such as plug detection.
- **Compact, Passive Cooling** – Natural convection cooling design that can fit into any space.

Description	Specification
Input voltage	7VDC – 16VDC
Continuous Power	400W
Output Voltage/Current	120Vrms / 220Vrms 3.33A / 1.82A
Communication	LIN
Cooling	Natural convection
Temperature	-40°C – 80°C
Dimensions	188×127×49 mm ³
